Dear Ministers MacDiarmid, Coell, and Stewart:

Re: Carbon Neutral Commitment and SMARTTool

SMARTTool is an online tool developed by the Ministry of Labour and Ministry of Citizen's Services in order to provide Public Sector Organizations (PSO) a solution for calculating and reporting on Greenhouse Gas (GHG) emissions and GHG offset requirements. It embodies the methodological requirements of the 'Greenhouse Gas Reductions Targets Act' (GGRTA or Bill 44) and the Carbon Neutral Government Regulation and can also calculate the carbon-tax rebate.

Given that there was no Annual Facilities Grant (AFG) for our school district, meeting the carbon neutral commitment and potential investment in other climate change initiatives have become increasingly difficult. Furthermore, the 'Climate Action Charter' we signed (Mar/09) or the Ministry of Education's 'Climate Action Q&As' (Mar/09) did not indicate any costs associated with using SMARTTool - the Vancouver School District was not informed of such a cost until the Fall of 2009.

Without the AFG, our carbon offset payments of approx. \$600,000 and cost for using SMARTTool of \$45,000 (for the first year) introduces a substantial financial burden for the Vancouver School District. As such, the Board of Trustees for the School Board request that the requirements to calculate and report carbon emissions and purchase carbon offsets be postponed until the AFG is fully reinstated and funding is provided to ease the above costs.

Your timely response to this matter is much appreciated and we look forward to your reply.

Sincerely,
