

Preferred Concept - Concept 4

Concept 4 has been chosen as the Preferred Concept because it best meets the VBE's educational objectives:

- Greatest flexibility in planning a renewed school to meet current and future educational needs
- Maximizes the opportunity to utilize outdoor space
- Maintains desirable East/West alignment for teaching and learning spaces
- Maintains and enhances school identity and prominence
- Accessible Main Entrance
- Community Connections Spaces are grouped together at grade
- Organizes the school on only two floor levels
- Least environmental impact based on the Life Cycle Assessment
- No temporary accommodation in portables is required
- Lowest Project Cost

3 STOREY OPTION

To potentially increase the useable outdoor space, a three storey option will be explored once the appropriate Learning Environment model has been selected.
