1. What do you like or dislike about the new K-8 school on Acadia Road?

- Nice, quite appealing
- Beautiful site, like K-5 and 6-8 groupings, fabulous outside space
- Concerned about student access from south campus and whether there would be a crosswalk at W. 16th Ave. which would create noise for Hampton Place residents
- Worried about traffic, especially with nearby daycare centres and students walking
- Like the massing of the building and the diverse learning spaces
- Landscaping complements the building and affords a seamless transition for indoor/outdoor learning space
- Green space is great
- Appreciate that the building is situated back from the Acadia/Ortona intersection
- The design and landscaping are exciting and innovative
- Supportive on the design concept and landscaping integration

2. Do you have other comments on any information presented at today's Open House?

- Like to see the new school follow similar ideas to the existing U. Hill Elementary School re openness inside and outside. Take advantage of the beautiful setting for natural play and experiential learning opportunities.
- Looking for Late French Immersion program information
- Bells and whistles for all grades is a bonus
- Library seems small (3 people)
- Need more flexible areas for learning, possibly different spaces
