

Welcome!

Queen Mary Elementary School Renewal Open House

The renewal of Queen Mary School is part of the Provincial Seismic Mitigation Program and a high priority for the Vancouver Board of Education.

The Renewal process builds on the Visioning process undertaken in 2009. In 2010 the Ministry of Education approved a school space program including additional Neighbourhood Learning Centre (NLC) space for school and community use.

At today's Open House we invite you to review, ask questions and provide comments on the preferred renewal concept being presented tonight, as well as the other three concepts that have been under consideration.

Representatives from the Vancouver Board of Education, City of Vancouver, the Project Architects and their consulting team are available to answer any questions and listen to your comments. Also attending are parent, teacher, community, TASC and Park Board members of the Queen Mary Advisory Committee who have helped to shape and inform the concepts presented today.

Feedback forms are available to record your input.

Thank you for coming out.
