

Theme: Bubbles, Bubbles, Bubbles!

Date: April 15, 2020

Hello Everyone!

Today's content was put together by Teacher Ruth (Renfrew), Teacher Issette (Mount Pleasant) and Teacher Maribel (Seymour).

Bubbles are a lot of fun. Ask your children where they can find bubbles? Maybe in the shower with shampoo, when you take a bath, or maybe in the sink when you wash your hands? I bet we are all doing a lot of hand washing these days so here is another song you can try:

*One little, two little, three little bubbles  
Four little, five little, six little bubbles  
Seven little, eight little, nine little bubbles  
Ten little bubbles go pop, pop, pop!*

Now, if you are at home quarantined, you might not be able to buy bubbles at the store. So, here's a bubbles recipe with ingredients you have at home!

### **Bouncing Bubbles without Glycerin**

- 4 Tbsp water
- 1 Tbsp concentrated dish soap
- 2 Tbsp extra fine granulated sugar
- bubble wand (you can twist it out of pipe cleaners or a plastic cup by cutting a small hole on the bottom and using the wide end to blow out)

Check out this YouTube video of Teacher Issette singing the bubbles song and making bouncing bubbles with her kids 😊 <https://youtu.be/R2GJpPARJ0w>

Let's see some pictures of you blowing your bubbles. How big can your bubble get before popping? Bubbles are magical for kids. Young children like to pop them which helps develop their hand-eye coordination and older kids like to blow them so you can encourage them to count them!

For Families who are Facebook users – Please follow the Vancouver Public Library – they do a live story time each day at 10am <https://www.facebook.com/vancouverpubliclibrary/>

Thanks for reading - until tomorrow!
