

Theme: Shapes Galore!

Date: April 22, 2020

Happy Wednesday morning!

Today's email is put together by Teacher Steven (from Tillicum Annex) and Teacher April.

Shapes, oh the things we can make with shapes! Here is a fun art project that you and your children will love. It's called **3D Cardboard Art**. All you need is cardboard, scissors, markers and paint. First, you cut out a base shape and then cut out smaller shapes to layer on top of each other. Then, you can paint the cut outs and once they are dry, glue it all together into the design you choose. Check out April and her daughter's 3D designs. What can you make? Send us a picture of your creation 😊

Another fun game to play using shapes is "Eye Spy with my Little Eye". Look around your home and see what shapes you can find. This game is good for literacy, comprehension and turn taking. Also, pairing the written word with the image of the object helps develop reading skills for older children.

If you need more ideas for your 3D art project, listen to this story read by Teacher Steven called "The Perfect Sqaure" - <https://youtu.be/Nj2cvJAgShY>

*If you are new to our daily email and want to find one that was sent before, check out the **StrongStart page for our archived posts**. Content is organized by date and labelled by theme!*
