

Thanks to everyone who has returned the bus registration form. Reminder that the deadline is Monday, June 15.

Edith Cavell Elementary

June 12 2020 Some highlights from the week!

June 12 Update

Special Message from the Library:

Hello Cavell Families,

Thank you for the emails and posts asking about how to return library books. It's great to see that students are being so responsible! We have figured out a safe way for the books to come back. We currently have 347 books out and hope we can get back as many as we can so they can be packed with the rest of the collection to be moved.

A clearly marked bin will be placed by the front door of the school. Please put your library books in it and replace the lid as we have been having some rainy days. If you have any textbooks or books belonging to the school or your teacher, you can also put those in the bin but please place in slip of paper in it to indicate your name and division. There is no need to that with the library books.

We ask that you return books only during the set times so we can keep the school grounds clear for the safety of you, the staff and students who are out during recess and lunch, before and after school.

The bin will be out:

7:30-8:45

9:15-10:30

1:00-2:45

If you are unable to return the books at this time, please place them in a safe place and they can be returned when we are at the Maple Grove site.

Thank you!
Ms. Fung

Tell me a dragon...

Art work by Alice Salla

Reflection: I really like designing an art with only natural thing, it's was really colourful and beautiful and I 'm sure that people like seeing thing like that went there are walking around the park . The most challenging part was to find red petals for the flag of Canada because there weren't many and around there were a lot of bees.
